## Hidden Valley Soaps

All soaps are hand made from pure vegetable oils - saponified WA olive, certified sustainable palm, coconut and castor oils. These ingredients produce firm, mild, creamy, moisturizing soaps, with rich lather even in hard water. The different soaps are then crafted with pure essential oils, extra superfatting oils, herbs, cosmetic grade coloured pigments and other ingredients. We make beautiful soaps with gorgeous marbles, colours and pure plant aromas, expressing our love for a special Kimberley environment & lifestyle.

As well as making good soap at a physical level, we aim to create soap which cleanses and nourishes the human spirit. It's important to us to work with positive energy, maintaining a happy, loving workspace and bringing the best of ourselves to our work/play.

*Soapmakers' Prayer -  
Let this soap cleanse away fear,  
let love be here.*

### Freight

In the long winded saga of the **PO Box delivery charge**, we now offer the old Australia Post Express 3 kg bags (now \$16) and 5kg (\$23) again to PO box customers. These may take a little longer to reach you than Startrack, but at least you won't need to pay extra. Our normal, fast freight is Startrack Express 3kg (\$16) and 5kg (\$23). We also offer 500gm Australia Post Express bags to all customers, though they may be a little slower than courier (\$12). Sorry that there is simply no small courier freight option.

We are delighted to maintain all our prices this year with no significant rises.

## Soy Wax Candles

We just love our soys! They feel truly wonderful to make and to burn. Our luxurious soy wax all vegetable container candles are safe, environmentally sustainable and have many other advantages: they seem to burn forever, they burn safely in their containers, any spills clean up easily with hot soapy water, essential oils are easily incorporated and they can co-exist with fans and breezes. You can light them night after night, then later wash out the containers and use them for tealights.

We actually make most of these in 3 sizes – large (\$35), medium (\$20) and baby (\$12).

However, the beautiful large ones have proven too fragile to send for mail orders. They are available in our shop and we suggest transporting them in hand luggage. We have had boxes made for the medium size Soybeams, and these have proven safe in transit and attractive as gifts. Our little baby soys are not as yet individually boxed, but they have proven relatively safe to send in bubble wrap or in boxes of 3.

### Soybeams (medium) \$20 ea

These are in beautiful safe bulb shaped glass containers with lids, and have essential oils added at a minimum of 4%. We finish the bulbs with gift tags and beads on stretch gold or silver cord, so they make beautiful gifts. At Christmas we use Christmas decorations (bells, holly etc.) if you choose. The medium bulbs take 125gms of soy wax and burn around 40 hours! All these medium Soybeams come in attractive gift boxes and bubble wrap for safe transport. (And some unboxed babies for \$12, see below, which burn 20-25 hours)

# Hidden Valley pure essential oils

Hidden Valley Handcrafts sells pure essential oils in 10 ml glass bottles with dripolators, and larger amounts (50, 100mls or more) available on request. Due to the huge quantities of essential oils bought for soap and candle making, hence our purchasing power, and our minimal packaging policy, it is possible to keep prices fairly low. However, be assured that we are fussy about high quality! For instance, the sandalwood is the best available in Australia.

## Fragrant (synthetic) Oils

We dislike most synthetic aromas, but a few good ones stand out – all are 10ml sizes.

**Frangipani "Perfume Oil"** \$28.00  
Cook Islands frangipani but contains a perfume fixative. However, it smells nicer than real Frangipani Absolute.

**Sandalwood Fragrant Oil** \$15  
From Brambleberry (U.S.), one of the nicer sandalwoods as the real thing becomes very expensive. Some people actually prefer this.

**Sweet Dreams Oil Blend** \$15  
High quality vanilla fragrant oils with pure essential oils of orange & cardamom.

**Cempaka** \$15  
From Denpasar—it's a favourite SE Asian floral, also used in Body Mousse and some hair products, following Balinese practice.

**Rejuvenate** organic skin care range represents the best, safest and most organic facial products we can make, in high quality packaging. Naturally they are more expensive, but they compete competitively with well known expensive brand cosmetics. Our feedback has been wonderful, some are tossing their expensive French big name cosmetics!

There are four products in the range. You can buy the whole set in a handy zip bag, or each individually in a white satin bag. Alternatively, we have smaller sized Travel Packs of the 4 products.

Unfortunately we are cancelling further production of the original **Soothe** range for sensitive skin. Far fewer customers have been interested in this than in the **Rejuvenate**. And due to our careful use of ecocert preservatives, we cant turn Soothe over quickly enough to avoid spoilage. We really regret having to cease making Soothe, and apologize to anyone inconvenienced. We DO still have smallish stocks available, especially of the moisturiser. Phone for information.

## Rejuvenate

Designed for women, like ourselves, who have mature or dry skin and want extra nourishment in their skin care. But having said this, our daughters (in their 30s) have really enjoyed them too! The moisturiser in particular has been enormously popular, particularly in dry times of year.

We spent a lot of time deciding on the purest, most effective nourishing and replenishing ingredients for our "women of wisdom", with thrilling results. Includes:

*Eco Cert approved olive emulse wax, organic carrier oils - camellia, jojoba, evening primrose oil and rosehip, organic rose hydrosol, organic plant extracts which are anti ageing, strengthening, elasticising and anti oxidant, and soothing emollients and cleansers which support the lipid layer of skin while cleansing, keeping it supple. The inclusion of special vitamins and CoEnzymeQ10 - an anti oxidant which protects the cell membrane against environmental damage caused by free radicals, further help in preventing wrinkles and sagging. Our beautiful Bush Flower essences are selected for their physical and emotional properties and to nurture the feminine.*

## Body and Hand Wash

125mls with disc cap	\$11
250mls with pump	\$18
475mls with pump	\$30

In some ways it's sad that many people are now choosing to wash themselves with synthetic detergents, developed in the second World War, rather than natural soaps as used for centuries. Sure, it's easier to clean the basin. And we know you can get so called "Liquid soap" (which is not truly a liquid soap) cheaper at the supermarket, probably using high foaming and drying sodium lauryl or laureth sulphate. But our Body and Hand Wash uses the safest and mildest liquid cleansers we can find, and all have a special expensive eco-cert additive sucrose cocoate to moisturize and mitigate any stripping effects of detergents on skin. pH balanced, we use mild safe cleansers decyl polyglucose and cocobetaine, with moisturising sucrose cocoate and glyceryl cocoate, Crothix thickener & paraben-free preservative. These will not strip skin oils and they feel kind to your skin. Available in:

**Cable Beach Sunset**—our classic pampering blend of rosewood, lavender, palma rosa, rose geranium, vetiver & patchouli.

**Rise & Shine** Fresh with citrus & mint (orange, lime, geranium & a dash of mint)

# Mail order information

## Rewards & Freebies **NEW!**

All orders above \$150 (products only) please choose a free gift up to \$10 value. All orders above \$250 (products only) please choose a free gift to \$20 value OR free freight. If you are ordering via our website, please add your choice in the comments section.

## Policy

With your **first** order, we ask for mailed payment, proof of direct deposit or credit card details with your order. Once bona fides are thus established, you can opt either to continue with credit card payments, or pay for subsequent orders by direct deposit or cheque on receipt of the goods. **Please note that we do not keep your credit card numbers unless you instruct us to do so.** Choosing to pay via credit card means we need these details each time you order.

Orders by phone, fax, email or via the website. The items will be packed up and sent with the invoice enclosed. We may choose not to send a new order before you have paid for a previous one. We aim to be prompt with our mailouts, unless a product needs to be made, in which case we will notify you.

## Postage & Packing (user pays)

We use the courier company Star Track. We mostly use 3 kg and 5 kg bags, or multiples of these for bigger orders. These take 2 or 3 days from Broome, depending on your location. We need to put ATL ("Authority to Leave") stickers on all our bags, so the courier is authorised to leave packages even if nobody is there to collect. We suggest you use a work address if you are concerned about possible theft from an unattended home address. Costs to any Australian location are:

- \* 3 kg (eg. max 24 soaps ) \$16
  - \* 5 kg \$23
- Or, for tiny orders, no more than 3 soaps
- \* 500 gm Express post \$12

## PO Box Deliveries

Sorry, but Startrack continues to charge us a post office delivery box fee, so we have decided to go back to using Express Post for PO Box customers (same prices). This may take slightly longer, but be cheaper and less problematic. So if you give us a PO box address we will use Express Post.

We attempt to package everything securely but the latest planes do fly higher, sometimes causing leakage of essential oils and liquids. We now use "TRAVEL SAFE" closures - either pumps or screw top caps on our liquid products. If your lotion has a screw cap we also supply an extra press disc cap to replace it with for easier application. We tape most products and enclose essential oils in ziplock bags to guard against leakage. Please let us know if you have any problems - we want everyone to be happy with their purchases.

## Payment

Credit card, cheque, money order or EFT (direct deposit), payable to Hidden Valley Handcrafts, BSB 736188, Account Number 560692. Please phone to provide credit card information or we can phone you. Credit card payments attract a 2% surcharge.

**PAYPAL**—we are investigating an Express Paypal & Credit Card payment option to the shopping cart on the website. However, this would cost an extra 4-5% , a charge we don't believe it's fair to absorb into regular prices for everyone.

## Hidden Valley Gift Sending Service

Just ring us, order your gift and we will wrap with pretty paper, ribbon & card with your words, sending direct to the treasured person. We send the invoice to you, with extra charge of \$5 *Easy!*
